

Looking for Beautiful Spa on the shores of the lake in Annecy ? 🌄 ✨

Combine a stunning location in the heart of the French Alps, with a new, modern spa and a wide range of treatments on the shores of lake Annecy.

I am was lucky enough to test the **Cristal Spa Annecy** based in the emblematic **Impérial Palace Annecy** Annecy a few weeks ago on a Friday lunchtime (note it was the perfect time to go - I had the place to myself) and it was just what the doctor ordered...

The location is **FABULOUS** , with the pool and relaxation area overlooking the perfectly groomed gardens onto the lake and the surrounding mountains.

The spa has everything you could wish for: a pool with a jacuzzi area, a steam room, a sauna, an ice fountain, showers, gym, relaxation areas...

The treatment menu is extensive with the lovely **Cinq Mondes** products - my favourites being the orange flower range 🍊 (to die for). I had an oriental massage 🧖 which was amazing and put me in a state of total relaxation, the perfect mood to face the w/e and my crazy family!

Top tip: Arrive at least one hour before your treatment to enjoy the spa area.

Why not book in for lunch before in the brasserie or make a w/e of it and stay in the hotel itself! Check out special offers on the website.
